us. Come and bring a friend.

There are no less than 5,948,503
names on the Dominion voters' lists.

HEALTH ---

The Greatest Asset you and your Family Possess. Why Neglect It?

ILL HEALTH — Your Greatest Liability — WHY CULTIVATE IT?

Wampole's Tasteless Preparation of Cod Liver Oil
will safeguard you and your children against the danger signals of ill health. The greatest medical authorities in the world advocate the use of PURE COD LIVER OIL for the treatment of wasting diseases, particularly where there is a tendency to chest weakness or lung trouble. It is not only pleasant to the taste, but easily digested and rapidly assimilated, and restores strength and new created and renewed energy, and increases weight more readily than any other remedy. FOR THAT STUBBORN COUGH IT HAS NO EQUAL.

Price for 16-oz Bottle, \$1.00

If for convalescent, weak or growing children, a marked difference can be noticed after the use of one bottle.

MAJOR ACTON TO PAY VISIT TO THE PASS

Major Acton has made it possible from his busy life to pay a visit to Coleman. He will be conducting special services at the Salvation Army Sunday, September 22nd, at 11 a.m., and 7 p.m.

His famous illustrated lecture on "Alaska" will be given at Bellevue on Friday, September 20th. Keep these dates open and endeavor to meet him at all services and give Major Acton a real welcome home. Tell your friends.

ANGLICAN BISHOPS TO MEET IN CALGARY

Commencing today, the House of Bishops with the Most Rev. Archbishop Owen, D.D., primate of all Canada, presiding, are gathering in Calgary for their annual meeting, together with the executive council and general boards of the Anglican church in Canada.

On Sunday at 7:30 p.m., a service will be held in the Victoria pavilion, in which the archbishops of New Westminster and Ottawa will take part. The lieutenant-governor of Alberta will read the lesson, and the primate will preach. The combined choirs of the Calgary Anglican churches will lead the singing and two anthems will be rendered, "O Glad Some Light" by Sullivan, and "The Glory of the Lord" by Handel.

Nothin' d'iddin'! For the first time in about twelve years, the Enterprise windows were minus advertising posters for about one hour on Monday.

It was officially announced on Tuesday by R. H. Field, returning officer for the Grouard constituency, that L. A. Giroux, Liberal, had been elected on the first count by a majority of 479 over all others. Final report in the constituency had been delayed, due to the fact that two ballot boxes had not been received by the returning officer until some time after the election.

TWO NEW CUPS FOR FESTIVAL COMPETITION

A meeting of the finance and executive committees of the Crows' Nest Pass Musical Festival was held in the Greenhill hotel parlor on Tuesday night, September 10th.

After the routine business was disposed of, the preparations for the forthcoming festival, which will be held in Blairmore on October 25th, 26th and 27th, were fully discussed and approved.

A hearty vote of appreciation was accorded to Mr. W. G. Moffatt, supervisor of music in Pass schools, for two new cups given for competition for highest marks in classes of school choruses and boys' choirs, respectively. This brings the number of cups and trophies up to eighteen.

Rhythms bands, a new class, and action songs by little children will be among the well-loved classes for little folks.

This year it has been decided that certificates won each day will be presented at the close of the evening's performance of the same day.

There will be eighty-seven classes in all, and many entries from towns in the district, east and west, have already been received, and enquiries are arriving every day.

Anyone desiring a syllabus or information will please communicate with the secretary, Mrs. J. H. Farmer, at once.

NO WORK, NO RELIEF

"The world owes me a living," is a refrain whose popularity increases in proportion to the volume of demagogic agitation and length of unemployment. Unfortunately, both provocations have been increasing in the last few years.

The refrain reached a crescendo last month when the harvest opened seasonal jobs for many unemployed. Some relief authorities wisely insisted on a change from the exercise of the voice to that of brain. To whom we say "hear! hear!" For the good of themselves, of the taxpayers and of the country's finances we like this policy of compelling men to earn their living when jobs are available—or else. Everyone sympathizes with unemployed sincerely seeking work, but there are those, and many of them, who prefer to go on marches as long as the government sends them a relief cheque.

That farmers should let their crops go to waste for the lack of harvest labor is a situation which the Dominion should not tolerate. In an era of slogans, we suggest, when work is available, "No Work—No Relief."

Finding employment or giving men the opportunity to work, is one of our greatest problems, but paying for idleness when work is available, is not the part of economic wisdom.

Ex.—

President Beatty came very near stopping his train when passing through Blairmore on Monday. He and his party were dumfounded at the magnificent appearance of the Tim Buck boulevard. Mr. Beatty actually became so enthralled at the sight that he attempted to jump off, but was pushed on to safety by Angus Dufunay, a local white.

Following comprise the teaching staff of the Blairmore schools for the fall term: Central—D. MacPherson, (principal) high school; R. Racette, high school; S. White, high school; Miss G. Fry, high school; W. Jallep, Grade VIII; Miss L. Brunetto, Grade VII; Miss L. Fraser, Grade VI; Miss S. McVey, Grade V; Miss E. Fisher, Grade IV; Miss F. North, Grade III; Misses A. Soulet and A. Kubik, Grade II; (each teaching a five-month period). West end school—Miss B. Crowder, Grades I, II, and III; Miss A. Hamilton, Grades IV, V, and VI.

"GUS" LYNN VICTIM OF AUTO ACCIDENT

A car driven by Joe Evans, of the Todd Creek district, went off the highway just east of Lundbreck on Wednesday evening last and rolled into the ditch. The occupants, Gus Lynn, Peter Scotte, Richard Williams and Jack Hallsworth, were extricated with difficulty from the wreck and rushed to the Pincher Creek hospital, where Lynn passed away early on Thursday. Other members of the party are still in hospital suffering more or less serious injuries.

The driver, Joe Evans, was placed under arrest and appeared before the magistrate at Pincher Creek charged with driving a car while intoxicated. He was convicted and sentenced to serve ten days in Lethbridge jail.

Lynn was very well known throughout the district, having for many years prosecuted farming in the Todd Creek district. He is survived by his wife, two sons and one daughter. The latter, Mrs. Petersen, resides near Lethbridge.

Funeral took place on Monday afternoon, the remains being laid to rest in the Livingstone cemetery, Rev. A. S. Partington, of Coleman, officiating.

The deceased was sixty-nine years of age.

HUEY LONG DIES FROM BULLET WOUND

Baton Rouge, Louisiana, Sept. 10.—United States Senator Huey P. Long, known the world over as the dictator of his native Louisiana, died Tuesday of a wound inflicted by an assassin.

Physicians battled for 31 hours to save the 42-year-old chieftain's life. They performed one operation, five lung transplants and administered artificial oxygen to no avail. Death came at 3:06 Mountain Standard Time.

The gunshot wound was inflicted by Dr. Carl A. Weiss, Jr., kinsman of a Long political enemy, in the corridor of the Louisiana state capital at 2:30 p.m. Sunday.

Dr. Weiss, a 30-year-old eye, ear, nose and throat specialist, pressed a gun into the senator's stomach and fired. His arm was deflected before he could fire a second shot, and Long's bodyguardsmen, state highway policemen, killed him on the spot with a fusilade of 60 bullets. Dr. Weiss was buried Monday.

PAINT PRICES SHARPLY REDUCED

A sharp reduction in the price of first quality house paint to \$3.95 per gallon is announced by the manufacturers of some of Canada's best known brands of paint, the reduction to take effect immediately.

In making the announcement, the companies concerned state that the reduction is not justified by any change in market conditions or manufacturing costs. They point out, however, that during the past few years many householders have been misled by "bargain" prices into using inferior paint with results that reacted unfavorably on the whole industry. Drastic action was felt to be necessary to check a situation that seriously threatened property values all over the country.

The new low price is designed to make it easier for property owners to use first quality paint only, with resulting benefit to the property and to the community in general.

The companies announcing the reduction are Canada Paint, International Varnish, Martin-Senour and Sherwin-Williams.

John H. Blackmore, B.A., Raymond school teacher, has been chosen Second Credit candidate for the Lethbridge federal constituency.

K. P. LEADER IS GREETED AT MICHEL

Michel, B.C., Sept. 10.—An event of interest to all members of the Order in the district took place in the K.P. hall here on Saturday night, when Fred H. Jones, of Los Angeles, Calif., supreme vice-chancellor, paid an official visit. He was accompanied by J. B. Slough, deputy supreme chancellor, of Vancouver. Representatives were present from Hillcrest, Coleman, Blairmore, and Lethbridge.

Bro. Jones delighted the large audience with his talk on the "Recovery of Pythianism." He stated that in his goodwill tour he had been in twelve different states, and that he would be six months away from home. Twenty-three years a member of the Order, he has seen much progress, especially in his own country, and the Order was still spreading throughout the many states, he had visited.

Upwards of 140 sat to supper, following which a programme of music and speeches occupied an hour or more, followed by games and dancing.

TO START PROVINCIAL SURVEY

Preliminary steps in preparation for province-wide registration of Alberta citizens for the Social Credit basic dividends of \$25 monthly will be started immediately through an elaborate network of workers in each of the sixty-three provincial constituencies. The work will be conducted by the campaign machinery set up by the Social Credit party for the recent election. Men who served the party at that time will prepare the way for registration by organizing each constituency for registration. The work will be voluntary and will cost the government nothing, so it is stated.

Marvin Nelson, of Fort Dodge, defeated George Young, of Toronto, in the five-mile swim near Toronto on Thursday last. He won out by the small margin of twelve yards and won \$2,750.

On Tuesday evening next, the I.O.O.F. Sovereign Grand Lodge, meeting in Atlantic City, will broadcast a special radio programme over the Columbia Broadcasting Co.'s stations in the United States, and over the Canadian Radio Commission's network in Canada. The broadcast will be heard from 8:30 to 9 p.m. mountain standard time, and will include addresses by Supreme Lodge officers and special music. In Alberta it will be heard over stations CFAC and CFCN.

WORLD HAPPENINGS BRIEFLY TOLD

A television broadcasting tower is being built on top of the Eiffel Tower and is expected to provide regular service after three months testing.

To investigate possibilities of Swiss farmers with capital settling in Canada, a delegation from Switzerland arrived in Montreal recently aboard the liner Montcalm.

The Japanese government authorized diplomatic action at Shanghai against the magazine China, weekly reviewed by John B. Powell, an American, because of an article allegedly insulting Emperor Hirohito. "Hummel," a Doberman Pinscher, owned and entered by Rudy Vallee, the orchestra leader, won first prize at the annual international dog show at the Canadian National exhibition, including a prize for the best dog of the breed.

Apparently tired of goat's milk and fruit, on which he has lived for years, M. K. Gandhi is trying out a new diet. He is experimenting with leafy vegetables and says he feels very fit as a result.

Main terminus for Britain's international commercial skyways, Croydon aerodrome accommodation is being increased to handle more than 20,000 passengers and 500 tons of freight and mail monthly.

Mass protest against a tuition fee increase of 25 per cent, which will be introduced this year is being contemplated by University of Toronto students, it was learned. Medical students, facing a \$75 higher fee, are said to be solidly behind the movement.

Dr. L. J. Simpson, Ontario minister of education, announced all students wishing to attend normal schools this fall would be subjected to a thorough medical examination and only the physically at work would be allowed to enter. It was the first step in a movement to reduce the over-supply of teachers in the province.

Miners' Strike Threatened

British Miners Are Dissatisfied With Wages And Working Conditions

A national miners' strike will be declared in Great Britain if demands for higher wages and better working conditions are not met, Ebenezer Edwards, secretary of the Miners' Federation, declared in a manifesto in London. The manifesto asked the public to help the miners to avoid a crisis.

"The hour has struck," it said. "After years of patient submission to conditions fit for slaves, the miners have decided to enforce their demands for the payment of reasonable wages. Their wages are a shame for a civilized community."

By analyzing the bronze in coins from Athens, Ephesus, Egypt and other places, in centuries just prior to the Christian era, a chemist has traced changes in metallurgical practices in the Greek period.

New Northern Passage

Discover Warm Water Channel Through Arctic Ice

The Soviet ice breaker Sado reported, by wireless it had discovered a warm water passage through Arctic ice which might be a section of an open channel through which seafarers could navigate to the far east from Europe by way of the polar regions.

George Ushakov, head of the expedition exploring Arctic areas, said the passage was 650 feet wide, cut through previous unexplored territory between Franz Josef Land and Nicholas the Second Land. He reported the water lane was flanked by fields of impassable ice.

Ushakov, who also announced the discovery of a new island, said he believed the water was a part of the Gulf Stream. The passage was reported extending due north from the position of the Sun, given as 81½ degrees northern latitude and approximately 700 miles from the north pole.

The position of the island was given as 80.51 degrees northern latitude, 75.25 longitude, placing it east of the Franz Josef group in a practically unexplored area.

Selassie Has Secret Fund

Former Emperor Left Millions To Defend Country Against Italy

Reliable sources said Emperor Haile Selassie has a large secret fund of gold and silver to pour out in fighting Italy in the event of hostilities.

The money, amounting to several million dollars, had been left by the late Emperor Menelik in his last testament for the defence of his country and is deposited in secret caves known only to the emperor.

The fund includes 10,000,000 gold lire, which Italy paid Ethiopia as indemnity for the disastrous defeat in Adua in 1896, as well as sums deposited by the emperor from the Government reserves for the preservation of the empire.

Menelik's dying command to his relatives was to defend Ethiopia's independence at all costs, employing the fund as a nucleus.

Successful Outing

Soldiers Settlers of Millet District Hold Annual Picnic

Millet, Alta.—A very successful picnic of the soldiers' wives of the Brinewell and Michigan districts was held recently under the auspices of the Soldier Settlers' Union, with the provincial secretary in charge.

It was the second annual picnic camp, three miles south of town. Sports were held and later the men of the Legion band entertained.

It was regretted that the provincial secretary, Mr. Roger of Gillies, could not be present as he was obliged to leave for Vancouver on business. The committee look forward to next year's picnic meeting, and hope to swell the number from 40 settlers to 140.

Fate Of The Stowaway Not As Severe Now As In The Olden Days

The fate of a stowaway in the "good old days" was summary and severe. He could have little doubt as to what he would get—an introduction to the rope's end, and a voyage of slavery in working his passage.

To-day the stowaway meets with a far more prosaic reception. Repeatedly such people are discovered before the ship leaves port and handed over to the authorities on shore. Nevertheless, some there are who manage to elude observation until the vessel they have chosen is well at sea.

It is practically impossible to land undetected at the ports of any civilized country, even could stowaways remain concealed for a long voyage.

Today the life of a stowaway is still fraught with danger. Examples have occurred of men trapped like rats in the shifting of cargo or suffocated through lack of ventilation.

The Great Eastern, that wonder ship of the reign of Queen Victoria, carried a grim secret below the waterline all the days of her seafaring life. From her very first voyage to her last she carried an involuntary stowaway—the body of a dead man—but the fact was never discovered until she reached the shipbreaker's yard. Then the skeleton was found in her hold, and proved to be that of a workman who had been engaged in her construction.

A curious stowaway story is told by Captain John Attwood, who has just retired after nearly 47 years at sea. His last command was the Union-Castle liner Balmoral Castle.

When he was second officer of the Goth in 1901 he found an escaped Boer prisoner who was six feet three inches tall hiding in the case described as containing "spare" and measuring less than five feet in length.

This interesting curio was consigned to an eminent officer of the Buffs (East Kent Regiment), and the box is still to be seen in the museum on the island of St. Helena.

During the last war vigilance at ports was great, for as far as Britain was concerned the sea provided the only route for escaping prisoners. Nevertheless, one or two enterprising Germans managed to get away, and a particular individual for whose release four clowns had been raised by a national newspaper sent a postcard to that organ of public opinion announcing his safe arrival in Denmark.

This interesting curio was consigned to an eminent officer of the Buffs (East Kent Regiment), and the box is still to be seen in the museum on the island of St. Helena.

The world's latest marine terror bears little resemblance to the famous sea serpents of British Columbia and Scotland. The Amoy monster is said to closely resemble a man when seen from afar although no one has been close enough to obtain an accurate description of the creature.

The world's latest marine terror bears little resemblance to the famous sea serpents of British Columbia and Scotland. The Amoy monster is said to closely resemble a man when seen from afar although no one has been close enough to obtain an accurate description of the creature.

The monster is modestly clad in long black hair and is reported amphibious. Apparently it does not possess the long sinuous body and camouflaged head attributed to the Canadian serpents.

The world's latest marine terror bears little resemblance to the famous sea serpents of British Columbia and Scotland. The Amoy monster is said to closely resemble a man when seen from afar although no one has been close enough to obtain an accurate description of the creature.

"There's a Christie Biscuit for every taste"

MISS ALADDIN

—By—

Christine Whiting Pomerantz
Author Of
"One Wide River To Cross"
"The Unknown Port", Etc.

SYNOPSIS

Nancy Nelson is a sub-deb, a giddy, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market crash, her indulgent father loses his hair and his savings. He settles with the necessity of a simpler method of living. At this juncture a letter is received from an eccentric relative in Colorado, who offers the girl a home on which seems to be impossible conditions.

After much consideration, Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge.

Nancy sets out immediately to climb to the top of the hill so as to obtain a view of the surrounding landscape and misses the path Aurora Tubbs had told her to take. She comes along the road, driven by Matthew Adams, and she asks him which way to go. They ascend the hill, look around, and then go on to Cabin Columbine's. There Mark Adam finds Nancy, and his brother Luke has broken his leg, and that Jack Nelson has been hired to help out while Luke's leg gets better. With Jack away, Nancy finds that she loses time, and having no books to read, the idea of starting a public library at Pine Ridge seems a good one, and Nancy writes home to get her old books to sell the boys they could spare. She could telephone others to let them have.

Nancy and Matthew Adam go Christmas shopping in the neighboring town. On their return to Pine Ridge, Nancy is amazed to see the Columbine residence all lit up, and asks Matthew if he knows why. He says: "Let's go in and see." Then Nancy learns that she is having her debut, but in a different setting than had been planned for her in Boston.

Nancy's parents and friend gave the little support they requested for books, and a sizeable box arrived in due course. Father Adam painted a sign for the library, and the Adam boys worked on the shelves for the books and decorations to make the room look presentable.

Now Go On With The Story

CHAPTER XVI.

March "came in like a lamb," and continued lamb-like for so long that Nancy hung her fur coat at the very back of her closet, and concluded that spring had come. It was on one of these rare days when Aurora, deep in an orgy of housecleaning, ordered the girl emphatically to

"of course. You can ride back with Luke when he gets the milk cans this afternoon."

"That's grand," smiled Nancy. "How did your mother know that I was crazy to go out to the ranch today?"

"She didn't. It's a farewell banquet for yours truly. I'm swapping jobs with Mark tomorrow. Uncle Tom needs some one a while longer, and Mark is fit to tie at passing so much of your society. He called Mother up this morning with a pathetic note which she fell for instantly, and proceeded to point out the fact that it was my day to relieve him. Jack's going to drive me to Prairie Ranch tomorrow, and come home with Mark. I hope to thunder I'll be back in another week!"

"I hope so too," returned Nancy sweetly; "but it's been wonderful for Jack, having this chance of stay with you people. I didn't dream your uncle would be laid up so long."

"Neither did Mark," laughed Matthew, "or it would have required even more persuasion to make him go! But it was Uncle Tom who fixed things so Dad and Mother could marry when they did, and they'd lend him anything from their sons to their last copper. Say, Nancy, have—have you decided when you're going East?"

"I wrote Dad yesterday that I thought we ought to stay till June. There are such a lot of things we want to see, Matt; and goodness knows if we'll ever come again."

"Of course you will! What makes you say a thing like that? Why why if I thought . . ."

He didn't finish the sentence; and Nancy said drolly: "It's nice of you to want us to return! And we're going to miss you Adams a whole lot. That's straight, Matt. Yet I don't help wondering if when we get home again this—well, the whole experience, won't seem almost like a dream. If you knew how I dreaded to come! I was scared out of my wits. You've no idea what an awful coward I am."

"Was, perhaps," Matthew corrected gravely.

Nancy threw him a little smile; then her face sobered.

"I'm not so sure the past tense is correct, Matt. Sometimes I think my course has never been tested, and wonder how I'd stand up in a bind. It was pride that made me consent to come out here—that is mostly pride. I wanted to help Dad, of course. We all did. But I'd never have come alone, Matt. I'm no heroine."

"I beg to disagree with you, lady. Jack says you never whimpered at giving up that glorious debut."

The girl raised her head in sheer surprise.

"He did?"

Matthew nodded.

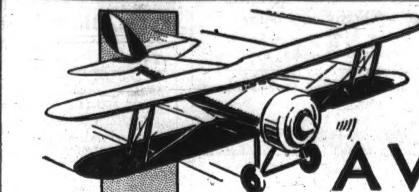

"Your kid brother thinks the world of you, Nancy. Didn't you know it?"

Nancy pondered that.

"I knew Jack was fond of me, of course; but when I hesitated about coming to Colorado he—he called me a parlor ornament, and—"

Matt laughed, his eyes shinning as his mother's had when Nancy first saw her.

"What's the disgrace in being ornamental so long as you're something else besides? Look at our library, Miss Aladdin! Honestly, Nancy, Dad says he doesn't know any one who's accomplished so much in a

AVOID AIR POCKETS

••• DANGEROUS IN FLYING
••• WASTEFUL IN BATTERIES

Brimming with energy, packed to the limit with power-producing materials, eager for a long life of active service—that's the Eveready Layerbilt.

Built layer upon layer, these flat extra-power cells make a distinct modern advance from old round cell types.

Note the waste air pockets and the numerous delicate wire connections in yesterday's models. Compare with today's compact trouble-free Layerbilt where every cubic inch is actively engaged.

If you want the utmost for your "B" battery dollar, only the Layerbilt will satisfy you.

EVEREADY LAYERBILT

"B" BATTERY

Canadian National Carbon Co. Limited, Toronto

Ayrshire Breeders' Association

Reports Received On Milking And Butter Fat Records

Reports have been received by the Canadian Ayrshire Breeders' Association on the milking and butter fat records of 147 cows and heifers, it was announced at Toronto.

Three-year-old class—Indian Head

New Forest, owner, director experimental farms, Indian Head, Sask., 11,154 pounds milk, 551 pounds fat.

Two-year-old class—Fintry Iris, owned by Capt. J. D. Dunwarron, Fintry, B.C., 12,594 pounds milk, 534 pounds fat, average test, 4.25 per cent fat.

They Come And Learn

Tourists From United States Findings Out About Canada

The Stratford Beacon-Herald says:

The tourist habit is one of the best corrective elements which has made its appearance. When people come and find heat here in Summer they know how limited has been their conception of this country. They will probably go home and tell other people. We can enjoy a good laugh at the expense of those who come in Summer armed and prepared for Winter, but the truth is the people from United States never knew any better. It is well they are finding out.

The Measure Of Success

In Ability To Keep On When Every One Turns Back

On every hand we see people who have turned back, people who had pluck enough to begin things with enthusiasm, but did not have grit enough to carry them to a finish. The point at which you are supposed to turn back the point when your grit begins to give way, will measure your achievement power. Your ability to go on, to continue after everybody else has turned back, is a good measure of your possible success.

Oil from a wild cucumber is believed to have been used by western Indians in paint which has withstood exposure for 150 years.

Little Helps For This Week

Be merciful unto me, O God, be merciful to me, for my soul trusteth in Thee; Yea in the shadow of Thy wings will I make my refuge, until these calamities be overpast.—Psalm 57, 1.

My God, in whom are all the strengths Of boundless love and grace unknown.

Hide me beneath Thy spreading wings,

Till the dark cloud is overblown.

In time of trouble go not out of yourself to seek for aid, for the whole benefit of trial consists in silence, patience, rest, and resignation. In this condition divine strength is found for the hard warfare, because God Himself fights for us.

In vain will you let your mind run on after help in times of trouble, it is like putting to sea in a storm. Sit still, and feel after your principles, and if you find none that furnish you with somewhat of a stay and prop, and which point you to quietness and silent submission depend upon it you have never learned the truth from the Spirit of Truth.

Dog Faced Court Action

"Pet," one of the richest dogs in the world, faced a court fight in Chicago for the \$25,000 left him by his late mistress, Miss Margaret McDermott. As Miss McDermott's will was brought to court for probate, two cousins announced a contest.

"Pet's" mistress died June 4 at the age of 70, making "Pet" her sole heir.

for NEURITIS

One thing that helps to cure neuritis is the use of the Minard's Liniment.

Then rub the liniment gently in.

Pain eases off!

MINARD'S
"KING OF PAIN"
LINIMENT

Blairmore, Alta., Thur., Sept. 12, 1935

When the Aberhart government took over the reins of office at Edmonton, they were tempted to sing that great old ditty: "When we got there, the cupboard was bare."

The Mail and Empire remarks: "The simplest way to keep peace would be for Haille Selassie to promise every Italian \$25 a month—payable in eighteen months."

The Brooks Bulletin remarks: "The provincial election taught one thing: that William Aberhart was greatly underestimated. Some have not learned this lesson even yet, and predict that he will be out of power in six months. This is liable to be Error No. 2."

Marshal Balbo says that certain Ethiopian practices, such as perforation and burning of the flesh, wallowing on fire, the swallowing of poisonous animals, broken glass, nails and prickly pear leaves, must be considered regressive to the principles of morality and modern civilization. So the Italians will stop them by using a new chemical which will burn off the Ethiopian's bare feet.—Ex.

The Drumheller New Review remarks: Lure of the much promised \$25 per month offered by the Aberhart government to all bona fide citizens is causing congestion in Alberta courts, where queues of applicants for naturalization are waiting to swear out the oath of allegiance to King George and the British flag.

This week, over ninety applicants presented themselves. Reports from the cities are to the effect that a large number of floaters are drifting into Alberta, in the hope of sharing in the distribution of government largesse within the next eighteen months.

Sir Malcolm Campbell's speed record of 304 miles per hour on the salt flats of Utah will accomplish little or any good. To our way of thinking he is simply setting a pace for motorists all over Canada and the United States who are already travelling too fast on public highways. With the present mania for speed death rides in many automobiles, with a guardian angel saving many people whose authority to drive motor vehicles is questionable. When a lunatic runs amuck with a gun in his hands the populace are astounded, yet little or no notice is taken of a man with a high-powered automobile in his hands, something ten times more deadly.—Cranbrook Courier.

Grabbing of gold and oil territory has been responsible for more international trouble than anything else in the world. The present Ethiopian trouble has oil as its basis, which may kindle an international flame and burn until half civilization is destroyed. There is unquestionable need for the Italian people to expand, but there is plenty of available territory without resorting to conquest. Benito Mussolini could, we believe, through negotiations with Newfoundland, purchase that ancient colony. Newfoundland is rich in minerals, timber wealth and has the best fishing grounds in the world. Fully developed, the ancient colony, with 42,000 square miles of territory, would take care of Italy's increasing population for the next century.—Cranbrook Courier.

ELEGY ON A GOLFER

Homeward the sulien golfer plods his way
Resolved no more the silly game to play.
Wild horses cannot drag from him his score
And six new balls are lost for evermore.

His loving wife remarks his visage grim
And swift prepares a dainty meal for him;

With surly look he pushes it away
And curiously chides the children at their play.

"Mamma," whines Tommy, "Why is dad so sore?"
"Go straight to bed," his father bellows, "or—"

A week has passed, and what a change we see:

The self-same golfer, whistling merrily;

With hearty kiss he greets his anxious wife,

And at the table yields an active knife.

The children, quick to grasp the golden chance,
With noisy shouts around their father dance.
Shrill cries of "Gimme" echo in the air,
Then swiftly to the sweet shop they repair.

"Now tell me," says his wife—
sweet, patient soul,
"The story of your game, dear
hole by hole."

—Activist.

George Young, returning officer for the Macleod federal riding, has made the rounds of the riding in his official capacity and reports that everything will be in readiness for election day. Meanwhile cards are being mailed to over 22,000 electors, notifying them of time and places of voting on election day. Voters must vote at place where registration took place.

Frank Yates, following his marriage here on Tuesday of last week to Miss Evelyn Lee, of Seattle, had a very narrow escape from death on the highway between Cranbrook and Windermere. While in the act of changing a tire, another car driven by Ogilvie Wills crashed into him, pinning him between the two cars. His injuries consisted of a badly broken leg and injured back. Capt. Ogilvie Wills was arrested, charged with driving to the common danger.

EATON'S

EDDIE, THE AD MAN

OUR LIL' OL' WANT ADS ARE DOING THE BUSINESS—ONLY YESTERDAY A LADY RAN AN AD SAYING "I WANT TO SELL MY GALE," AND LAST NIGHT BURGLARS BROKE INTO HER HOUSE AND STOLE IT! DON'T TELL ME THAT EVERYBODY DONT READ THE WANT ADS!

Some men wear spats. Others have them at home with the wife.

Yes, sir, there ought to be a law against paying election bets.

Wonder if Harvey Murphy claims credit for organizing that Social Credit Union Front.

Marie knows a gold-digger who calls her boy friend "Maple Sugar," because he's a refined rap.

Asked what use the bagpipes were at a wedding celebration, George replied: "Sets 'em all dizzy."

The final test of poise is to wear white shoes in a region where street loafers use eatin' tobacco.

When the pipe band of a certain regiment of Scots played for the first time on Church Square, Pretoria, a Kaffir listening to the band was asked what he thought of it. After a few seconds' consideration, he replied: "Plenty no good, boss. No beginning, no middle, no finish—all one like."

Mrs. D. Kemp, sr., and daughter Agnes, accompanied by Tommy Mc Kay and Miss Margaret Carmichael, returned from spending last week in Calgary. On the return trip they were accompanied by Mrs. Wilson, of Calgary, who will spend two or three weeks here, the guest of Mr. and Mrs. Kemp.

Paul Billwiller, son of Mr. and Mrs. P. W. Billwiller, of the Richdale district, Alberta, has been awarded a four-year scholarship at the Colorado School of Mines near Denver. This scholarship was granted to the student of the Calgary Technical Institute who made the highest standing in geology and mine surveying. Billwiller ranked in top position and secured very high marks in all subjects of his course.

Patient: "How can I ever repay you for your kindness to me, doctor?"

Doctor: "By cheque, postal order or cash."

Tompkins: "But you surely agree to taking out an insurance policy to cover your burial expenses?"

Wily Scot: "Na, na, mon; I might be lost at sea."

Ted (about to practice): "The mouthpiece of this cornet tastes funny."

Wife: "Oh, I forgot to tell you, I used it to fill up the lamp, as I couldn't find the kerosene funnel."

Two Scots were having a drink in a bar. Said one, seriously: "What's yer great ambition, Jock? Is there any one thing in the world you'd like better than another?"

"No," said Jock, hopefully; "an other would just suit me fine."

LEADING PAINT MANUFACTURERS

ANNOUNCE

PRICE REDUCTION

First Quality House Paint

Now \$3.95

per gallon

(Whites Slightly Higher)

The Quality Remains Exactly The Same. Only The Price Is Changed.

Dating from to-day, the price of first quality house paints manufactured and sold by the undersigned companies is reduced to \$3.95 per gallon.

There has been no change in market conditions or manufacturing costs to justify this step. We feel, however, there is urgent need for a reduction which will make it possible for householders to obtain the highest quality paints at the lowest price consistent with strict maintenance of quality.

Thousands of people all over the country have been forced to put off much needed painting. Thousands more have been misled by "bargain" prices into using inferior paint of little or no value. We want to make it easier for you to enjoy the advantages of painting with first quality paint only, and are confident that the generous reduction in price now announced is the best way to accomplish this.

THIS IS OUR CONTRIBUTION TOWARDS NATIONAL RECOVERY

(____)

All the world despises an anonymous letter—and its writer.

We have no respect, or confidence in the man who side-steps responsibility by refusing to sign his name to what he writes.

But did you ever think that unknown merchandise is anonymous? Nobody to vouch for it. No name signed.

Notice the advertisements in this newspaper. There in bold print are the names of those who stake their reputations—who stake your good-will towards them—on the truth of what they have put in type.

The makers of advertised goods and the merchants realize that they might fool you once—but never the second time. They know success is dependent upon your continued confidence in what they say in the advertisements.

Read the advertisements with confidence. They tell truths that you should know.

THE MEASURE OF SATISFACTION IS LARGER

Democracy And Liberty

Liberty, says Mr. Stanley Baldwin, is rooted in the English character and fostered and maintained by institutions which also have grown out of that character. That liberty is embodied in the parliamentary system which is the result of the obstinate determination of the English people to manage, individually and nationally, their own affairs. Mr. Baldwin says that system has grown out of the common sense and good nature of the people, who prefer elections to street fighting, and talking shop to revolutionary tribunals. The English, above all other peoples, have made a success of democracy and that success has been planted in the Overseas Dominions. The reason for this is adduced by The London Times as being a refusal to "wear our fetters in our souls." That freedom is the breath of democracy which protects the people from domination by one side or the other through the expression of opinion in the ballot box. It is, as The Times says, "the translation into action of our instinctive determination to resist any form of tyranny that has from time to time preserved us."

Mr. Baldwin reiterates that the price of liberty is eternal vigilance, and the more so in a democracy which is the most difficult form of government, and, therefore, the most worthy of giving our lives to make it a success. Thus Great Britain has the monition that it is not enough to sit with folded arms and believe that she has the greatest Government in the world. Tyranny takes many forms. It is constantly raising its head. One way of dealing with it is to stand up and say that the dominant classes have failed. According to Mr. Baldwin, it is the form of government which has won more triumphs than any other, and, therefore, should be cherished and cultivated as in times past. Self-government, which is democracy, has maintained in developing forms in England for eight centuries. No one is going to be able to tear it from its roots, which are laid in the English character.

When we review the history of this North American continent, we find that the struggle for liberty and self-government is written large over its pages. The Pilgrim Fathers left the old world in order that they might enjoy that religious liberty denied to them at home. The original American colonies revolted because self-government was withheld from them, and taxation imposed on them without their consent. The American Civil War was a life and death struggle for liberty. One long fight followed another in pre-Confederation days to win liberty and the rights of responsible government in Canada.

In the earlier days of the world's history, liberty could only be gradually won through bloodshed and death on the battlefield. Today it can only be retained and expanded through democratic forms of government, and the people, especially in the Americas, have learned to appreciate and innocent, which tends to protect the liberty of the people, and of individuals who are the aggressors over the people and the state.

Why have the peoples of Great Britain, United States and Canada laid such stress on individual liberty, and been willing to sacrifice all else in order to achieve it? The answer is, of course, that liberty is the greatest thing in life, and without it life is not worth the living. A slave may enjoy health and security, but lacking his God-given right of liberty he is denied that which is supremely greater, contentment and happiness.

It is not to be forgotten, too, that it is only in those countries where full and free democratic forms of government exist that liberty remains the priceless possession of the people. Yet we find in certain countries, where the people are less fortunate in the enjoyment of their liberties, those very democratic forms were first uttered by world-wide dictators to later deprive them of their liberties. And all over North America today there are organized groups, employing the very liberty which democracy has conferred upon them, to overthrow and destroy democracy.

It is necessary, therefore, for all people who prize liberty to be on their guard and resist every attempt, however veiled it may be, which is designed to restrict the liberty of themselves or others in even the smallest degree. Liberty once lost may be extremely hard to win back again.

A New Electric Lamp

Used Successfully In California To Attract And Kill Insects

A new electric lamp that attracts insect pests of field and orchard and then electrocutes them is in successful use in orchards, packing plants, slaughter houses and mushroom nurseries as the result of long experimentation by Prof. W. B. Herms of the University of California. The color of the light may be changed to the one most attractive to the insect pest. Among the insects which are attracted flying toward the light's glass coil are instantly electrocuted when they strike the wire cage. The head of the lamp contains transformer which supply electric power to the wire cage and to the lighted coil.

Icebergs have been known to be from 200 to 300 feet above the sea level and to have an entire height of from 700 to 1,000 feet—the larger portion being below sea level.

Is your rest broken at night? If your kidneys need attention take Gin Pills. They will strengthen your kidneys and if you sleep better you will feel better and look better.

24

Will Try Borsal System

New Method Of Training For Youth In Penitentiaries

A system of training youthful delinquents similar to the Borsal system in the United Kingdom will be inaugurated in one of the penal institutions of Canada, Sept. 1, it was learned at Ottawa. Within four years it is hoped to develop plans embracing the whole Dominion so far as Borsal training is concerned.

"If we are given one year for every 10 years of experimentation in Borsal training carried on by the United Kingdom, we shall be able to evolve a satisfactory system," declared one high government official. "The Borsal system had been in vogue in Great Britain for 40 years, the new methods are continuing to emerge."

In Canadian penitentiaries there were 221 young men between the ages of 16 and 21. It is with a proportion of these that the training system will start.

Holiday For Auto Horns

To make the life of pedestrians "a little more pleasant," Alderman Margaret McWilliams urged the blowing of automobile horns be prohibited for one or two months as an experiment in Winnipeg. The horn was more of a danger than a help, she told the civic traffic committee.

Husband (to wife who has just broken her glasses)—"You break everything that belongs to you!"

Wife—"I'm afraid you're right. Even you are a little cracked."

Old lady (to taxi-driver, who is still holding out his hand after receiving legal fare): "I don't see showing it to me, my man, I don't know a thing about naivety."

231

Paying Their Way

Dionne Babes Contribute Indirectly To Revenue For Ontario

If the five little Dionne girls knew anything about such things as tourist traffic, gasoline taxes and the revenues of trade, they might present themselves on their contributions to business and to the treasury of Ontario out of all proportions to what is expected of mere babes.

It has been estimated that the thousands of visitors to Callander are paying approximately \$12,000 a month in gasoline taxes to the province. The crowds who see the Dionne quintuplets average one thousand a day. Tourist traffic into the far North Bay district has increased nearly forty per cent., creating an evident prosperity that reaches out to hotels, other purveyors and tradesmen of all kinds.

The five little girls are more than paying their way, and are returning to the province substantial dividends on the sympathy and public assistance that was so generously and promptly rendered to them in the first precarious months of their young lives.

They are also supporting twenty persons, according to a report from Callander — their parents, three nurses, two maids for their mother, two hired men for their father, a cook, two orderlies, two special stablemen, three men to direct traffic, two hospital maid and Dr. Dafoe.

To their famous family they doubtless owe more than they can ever repay, but to themselves also come the pleasure of saving money for their education. Silver medal winners for highest scoring sample of butter in each section included Central Alberta Dairy Pool, Alix, Alta.

FASHION FANCIES

Bendix Trophy Race

Chicago Air Mail Pilot Is Victorious In Contest

Benjamin O. Howard, Chicago air mail pilot, drove his white cabin plane "Mister Mulligan," through murky skies at Cleveland to victory in the Bendix trophy race, from Burbank Union air terminal, Los Angeles, to Cleveland.

While Howard was nosing out Col. Roscoe Turner in flying time less than a minute better than his rival's, the body of Cecil Alien, young Californian pilot, was taken from his crumpled plane at the scene of the race start.

Howard flew the 2,046 miles in eight hours, 33 minutes and 16.3 seconds. He was the first of the field arriving at the national air races.

Butter Awards

Manitoba Captures Honors At Canadian National Exhibition

Manitoba creameries captured premier honors in the Canadian National Exhibition creamery butter contest, first place secured by the provinces were: Manitoba 42, Alberta 17, Ontario four, British Columbia two, Saskatchewan one.

The Winkler Creamery, Winkler, Man., was awarded the silver cup for the highest scoring sample of butter in the exhibition. Silver medal winners for highest scoring sample of butter in each section included Central Alberta Dairy Pool, Alix, Alta.

Exhibit From Britain

Port Of London Authority Had Space At Toronto

The Port of London Authority took space at the 57th Canadian National exhibition which opened at Toronto on August 23 and staged an exhibit representing the facilities provided in the Port of London to serve the great London market. The international character of London's commerce was emphasized by large-scale dioramas and mechanical devices illustrated the continuous flow of shipping in and out of the port.

The port authority have provided special facilities for dealing with Canadian trade, particularly at the Canadian commercial docks, and the trade has shown a marked increase during the last year or two. In a brochure specially prepared for the exhibition it is stated that "Canada wants to send more of her products and manufactures to Great Britain; yet many Canadians do not at present realize that London is Great Britain's premier port and serves Great Britain's greatest market. London provides the wealthiest and largest market for Canadian trade."

MORE SUPPORT FOR RAILWAYS SAID VITAL NECESSITY

Toronto.—The Canadian public was asked to support its railways or entertain the eventuality of a skeletonized service from Halifax to Vancouver.

D. C. Coleman, said vice-president of the Canadian Pacific railway told a conference of transportation officials and commercial travellers at the Canadian National exhibition, the railroads of Canada were approaching a crisis and foretold an important announcement of policy before the close of the present year.

"We have failed to realize the importance of railways in our national life," said Mr. Coleman. "We have endeavored by every means at our disposal to divert traffic from the railways. We have subsidized bus lines, air traffic and built magnificent highways, all of which decreased the revenue of the railways."

The speaker declared many persons criticized the railways for not replacing their equipment, speeding up of service and following the streamline trend popular in the United States.

"It is reasonable to expect the Canadian railroads with an outlay of more than \$600,000,000 in rolling stock to replace this at added expense in a time of shrinking revenues?" Mr. Coleman asked.

The railway official declared the trans-Canada highway, or a trans-Canada Air service would not replace the railways.

"Canadian railways freight rates are the lowest in the world. Wheat, timber and general freight are transported long distances at rates below that of any other country."

Mr. Coleman declared passenger revenues of Canadian railways decreased 55 per cent. in the last 17 years and said unless public support was afforded the railways, further reduction of service would be necessary.

Postpone Inquiry

Gasoline And Motor Car Probe Continues After General Election

Ottawa.—The tariff board will postpone further hearings in the gasoline and motor car inquiries until after the general election, it was learned. The board is said to take the view politicians might use statements made in the hearings in a manner to bring that body into political controversy if the public inquiry proceeded during the campaign.

Another reason for postponement is the fact it would be impossible to complete the hearings before the election and this might result in the voting prejudicial to the interests which had not had an opportunity to present their side of the argument.

Raises Short Term Loan

Federal Government Secures Lowest Interest Rate On Borrowings

Ottawa.—Finance Minister Rhodes announced the government had raised a loan of \$20,000,000 in New York for five months bearing the lowest interest rate ever obtained on Dominion administration borrowings.

The loan, running from Sept. 1 to Feb. 1, 1936, bears interest of three-quarters of one per cent. It was obtained from a group of Canadian and United States banks and will be used to retire Grand Trunk Railway Company of Canada seven per cent. debentures due Oct. 1 which are payable in New York.

A statement by the finance minister said the amount outstanding on the issue was \$23,740,000 and that the sum required additional to the amount raised by loan would be provided from other sources.

Selecting Normal Students

Toronto.—Dr. L. J. Simpson, Ontario minister of education, announced all students wishing to attend normal schools this fall would be subjected to a thorough medical examination and only the physically fit would be allowed to enter. It was the first step in a movement to reduce the over-supply of teachers in the province.

Joins Wheat Board

Winnipeg.—Appointment of James McAnah, assistant commercial editor, Winnipeg Free Press, to the staff of the recently-appointed Canadian wheat board was announced. Mr. McAnah will be secretary to the wheat advisory committee. He will take over the position Sept. 16, ending 12 years' service with the Free Press.

There are now approximately 3,247,000 milch cows in Canada.

Air Force For Sudan

Squadron Leaves Egypt Bound For Kenya Colony

Cairo.—A British Royal Air Force squadron left Egypt bound for the Sudan and Kenya colony. The expedition was announced as a precautionary measure.

Sir Miles W. Lampson, British high commissioner here, informed Mohamed Twefik Abdallah, Egyptian minister of war, that British air maneuvers would be held in the Suez region.

Ten Italian war transports passed through the Suez canal on their way to East Africa within two days. Three of the ships had a total of 7,000 men aboard, while seven were loaded with war supplies.

Big Reforestation Project

United States To Plant 600 Million Trees and Shrubs

Washington.—The government expects to produce enough trees in the coming year to create one of the largest forests in the world.

Officials announced federal and co-operating nurseries will have an output of 600,000,000 trees and shrubs, to be planted in reforestation projects at the rate of about 1,000 to the acre.

A large proportion of the 600,000,000 trees and shrubs, officials said, will be used in forestation phases of erosion control work on farms and grazing lands.

Urge Uniform Relief Plan

May of North Bay Believed It Would Be Approved

North Bay, Ont.—Handing a method of handing relief in the Dominion over to W. G. Bullock, of North Bay, opened the 35th annual convention of the Union of Canadian municipalities here with his presidential address. He expressed the belief, if a representation of 90 per cent. of all Canadian mayors reached a decision on a course to be recommended to the Dominion government, and to uphold the authority of the league in enforcing peace."

BRITISH LABOR GIVES SUPPORT TO THE LEAGUE

Margate, England.—British labor showed overwhelming support to any move to block Italy's aggressive intentions toward Ethiopia.

The Trades Union Congress decided, on a card vote of 2,785,000 to 177,000, in favor of a resolution calling on the government to back the league covenant to the utmost, by armed force if necessary.

The vote followed an impassioned plea by Sir Walter Citrine, secretary general of the congress, to keep the Italian bully from crushing Ethiopia.

"The word 'sanctions' means penalties and punishment," Sir Walter said. "The Italian government does not want conciliation; it wants conquest. We must do something to restrain this bully. There's only one way to deal with a bully, and that's the use of the force."

Thunderous applause greeted the secretary's speech, made during preliminary discussion of the resolution.

The resolution demanded that the league council take "all necessary measures provided by the covenant to prevent Italy's unjust and rapacious attack upon the territory of a fellow member of the league."

"The congress," it added, "pledges its firm support of any action consistent with the principles and practices of the league to restrain the Italian government and to uphold the authority of the league in enforcing peace."

Trade Problem Discussed

Possible That Situation With Japan May Be Improved

Ottawa.—Cabinet council gave further consideration to the Canadian-Japanese trade problem and the possibilities of improving the situation which arose earlier this summer when mutual trade restrictions were imposed against the movement of commodities between the two countries. No information was available at the close of the government meeting, but developments are expected soon.

A series of demands from Japan that the exchange dump duty be eliminated from the Canadian tariff picture so far as imports from that country were concerned, failing to meet the desired results, the Japanese government applied a 50 per cent. surtax against principal Canadian imports about two months ago. The Canadian government retaliated with a 33½ per cent. surtax against Japanese imports.

A total of about \$20,000,000 per year on a ratio of about four to one favor of the Dominion was involved.

Will Enforce Market Act

Vancouver.—The British Columbia coast vegetable marketing board intends to enforce its potato marketing regulations despite its failure in 14 cases against Chinese potato growers. G. A. Grant, crown counsel, declared as charges against the Orientals were dismissed. The charges arose out of an alleged attempt to run a blockade at Marpole bridge, August 12.

U.S. Government Completes Plan To Establish Legation Residence

Ottawa.—To complete its program for establishment of legation residence and office quarters in Ottawa the United States government has purchased the 10-acre estate of the late Warren Y. Soper in Rockcliffe village, a residential suburb of the capital, Norman Armour, United States minister to Canada, announced here. The Soper estate is one of the most beautiful residential properties in Ottawa.

Buys Ottawa Estate

Edmonton.—Major C. H. Douglas, the Scottish engineer who founded Social Credit, will play an important part in establishing the system in Alberta, he became apparent here. He holds a retainer as financial adviser to the province and is expected here shortly.

At the conclusion of the first real cabinet session of the Aberhart government, the premier announced he had cabled Douglas, asking if he had all the information he desired before leaving for Canada. If Douglas has the information, he will leave for Alberta immediately, if not, he will be supplied with facts and figures, Aberhart said. In the event he will come to Alberta as soon as possible.

The government, it was learned definitely, does not intend proceeding with the Barlow coal commission, established by the Reid administration. Sir Montague Barlow, an English coal expert, will arrive here shortly but he will not proceed with his inquiry into coal deposits, mining methods and markets, it was learned. Although Sir Montague was made chairman of the commission by the Reid government, the two members were not named. It was understood the Aberhart administration believed it already possessed all the information which could be collected by a commission.

Premier Aberhart also announced the rule on provincial banking certificates had been suspended and deposit had started again. The Reid government, a few days after the election, suspended redemption of certificates because of the number of withdrawals.

"I am gratified with the return to confidence shown by the people," Aberhart said, making his announcement. At the same time, he said the suspension would continue indefinitely until deposits had built up the fund.

CABINET MEMBER

W. Earl Rowe, M.P., for Dufferin-Simcoe in the last Parliament, who has been named Minister without Portfolio in the Bennett Cabinet.

Must Avoid Criticism

Ethiopia To Restrict Verbal Or Written Attacks Upon Italy

Addis Ababa.—More troops were rushed to the frontiers as Emperor Haile Selassie issued new decrees to restrain verbal and written attacks upon Premier Mussolini and Italy.

The emperor ordered Kidane Miriam Take, editor of the Amharic language publication, "Voice of Ethiopia," arrested for using violent language against Italy.

A restrained attitude toward Rome was demanded by Haile Selassie. He ordered all publications to refer to Il Duce politely as "Mr. Mussolini" and never to attack him or Italy.

Although the end of the rainy season-long heralded as the probable time for hostilities to begin if war came, no action is anticipated this month, the Associated Press correspondent at Jigjiga, northern Ethiopia, reported heavy rains are continuing. Such roads as exist are waterlogged wherever the Italians would have to advance.

"I do not advocate a speed of 90, 80 even 70 miles an hour on the public highways," said the nervous Englishman, who boosted his own lands speed to 301,129 miles an hour.

"Roads reveal many machines are not safe to drive even 40 miles an hour, yet the owners send them whizzing along at nearly twice that speed. I hope my tests and drives result in perfection of cars to such an extent they will withstand the severest strain in an emergency."

"I quit my sport and then again I may not," he said.

Distribution Of Voters

More Than One-Third On List Are Resident In Ontario

Ottawa.—More than one-third of the 5,642,529 names on the basic list prepared last winter for the forthcoming election are resident in Ontario. The "banner province" has 2,172,596 electors qualified to vote on Oct. 14.

Ontario and Quebec account for considerably more than half of the Canadian electorate—3,747,120 to be exact. Quebec's list number 1,574,120.

Saskatchewan's list totals 443,864, with British Columbia next with 332,120 electors.

Manitoba's total is 371,204.

In Alberta there are 368,866 names on the basic list.

The three maritime provinces aggregate 368,174, made up as follows: Nova Scotia, 302,738; New Brunswick, 229,162; and Prince Edward Island, 53,274.

The Yukon registration numbered 1,802.

Safer Motor Cars

Sir Malcolm Campbell Hopes That His Test Will Have This Result

Salt Lake City, Utah.—Sir Malcolm Campbell, the only man ever to travel on land at the rate of five miles a minute, expressed the hope that his tests would result in the construction of safer motor cars.

"I do not advocate a speed of 90, 80 even 70 miles an hour on the public highways," said the nervous Englishman, who boosted his own lands speed to 301,129 miles an hour.

"Roads reveal many machines are not safe to drive even 40 miles an hour, yet the owners send them whizzing along at nearly twice that speed. I hope my tests and drives result in perfection of cars to such an extent they will withstand the severest strain in an emergency."

"I quit my sport and then again I may not," he said.

Magazine Censored Again

Page Of United States Publication Deleted In London

London.—The News-Chronicle said the United States magazine "Time" has been censored for the second week in succession, a page "underlined to refer to a visit by the Prince of Wales to Great Britain" was cut out of all copies sold in Great Britain.

Officials of other Chinese banks, however, voiced confidence in their ability to meet heavy withdrawals resulting from public nervousness.

The falling of 60 million dollars from the general depression in China and the effects of the American silver purchasing policy were blamed by officers of the Bank of Canton for suspension of payments.

The fall of 60 million dollars from the general depression in China and the effects of the American silver purchasing policy were blamed by officers of the Bank of Canton for suspension of payments.

ALBERTA LOOKING FOR ADVICE FROM MAJOR DOUGLAS

Edmonton.—Major C. H. Douglas, the Scottish engineer who founded Social Credit, will play an important part in establishing the system in Alberta, he became apparent here. He holds a retainer as financial adviser to the province and is expected here shortly.

At the conclusion of the first real cabinet session of the Aberhart government, the premier announced he had cabled Douglas, asking if he had all the information he desired before leaving for Canada. If Douglas has the information, he will leave for Alberta immediately, if not, he will be supplied with facts and figures, Aberhart said. In the event he will come to Alberta as soon as possible.

The government, it was learned definitely, does not intend proceeding with the Barlow coal commission, established by the Reid administration. Sir Montague Barlow, an English coal expert, will arrive here shortly but he will not proceed with his inquiry into coal deposits, mining methods and markets, it was learned. Although Sir Montague was made chairman of the commission by the Reid government, the two members were not named. Premier Aberhart also announced the rule on provincial banking certificates had been suspended and deposit had started again. The Reid government, a few days after the election, suspended redemption of certificates because of the number of withdrawals.

"I am gratified with the return to confidence shown by the people," Aberhart said, making his announcement. At the same time, he said the suspension would continue indefinitely until deposits had built up the fund.

ANTHONY EDEN MAKES NOTABLE SPEECH AT LEAGUE

Geneva.—Anthony Eden, Britain's minister for league affairs, opened the session with a strong and earnest plea for maintenance of the league in both letter and spirit. The scene was dramatic in the extreme.

Eden emphasized Britain was ready to do everything in her power to maintain the organization.

"In these post-war years," said the British delegate, "the nations have striven laboriously and sincerely, with a measure of success, to create a new international order which shall henceforth spare mankind the scourge of war. They made this attempt because they have learnt long last the bitter lesson that war is a constant enemy of progress."

"That is why they pledged themselves in the pact of Paris to renounce war as an instrument of national policy."

It was for the same reasons members of the league previously expressed their determination, and gave form to their conviction, in articles of the covenant which they drew up, and which we have all undertaken to respect.

"The machinery of the new order is here in Geneva. If the spirit is also here we cannot fail.

"It is because his majesty's government is acutely conscious of their responsibilities as members of the league, because they are prepared to fulfil their share of such responsibilities that I can assure my colleagues of our most whole-hearted cooperation in the difficult task that confronts us all."

"I am sure that all of us, as members of the council, must be fully alive to our responsibilities at this time. World opinion is watching us. The league has not a few successes to its credit, even in the short years it has lived, such a brief span in human history. Yet we all know we cannot fail to succeed if this is not the time to blind ourselves to the truth that if in the judgment of world opinion the league fails in this dispute its authority for the future will be grievously shaken, its influence gravely impaired.

"The collapse of the league and the new international order for which it stands would be a world calamity."

"I need hardly repeat on this occasion that there is in this dispute between Italy and Ethiopia no question of any political or economic conflict between the United Kingdom and Italy.

"The specific interests of Britain in Ethiopia have been publicly recognized by Italy and his majesty's government are under no apprehensions that they will not continue to be respected as they have been in the past."

"The role concern of his majesty's government in this dispute is as a member of the league and a signatory to the pact of Paris. In the position in which we find ourselves the nature of the task which lies before us is plain.

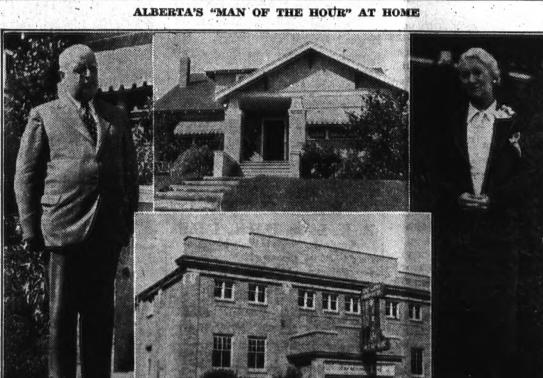

"It is our duty to use the machinery of the league that lies to our hand. Let us set it to work forthwith, and if we obtain loyal collaboration of the two parties to the dispute we shall not fail to achieve the peaceful settlement we so earnestly desire."

Premier Laval spoke in support and the French Ambassador agreed "an association of pacific collaboration between Italy and Ethiopia having unfortunately failed," he said bluntly. "Italy cannot continue her attitude of passivity and forgiveness towards a barbarian state incapable of controlling itself, incapable of controlling its subject populations, which, powerfully armed, at present threaten Italian frontiers...."

"The Ethiopian government has done nothing to make it worthy of belonging to the community of civilized nations. Even more, it has not absolutely conformed to the engagement it has undertaken for admission to the league.

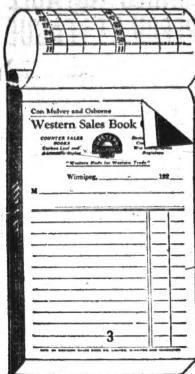

"The Italian government holds in these circumstances that a state like Ethiopia cannot have either equality of rights or equality of dealing with civilized states. If such equality is granted to her, and above all if in granting it credit is given to Ethiopia for the future, these are not sufficient motives to permit the league to permit and to prejudice other members, an error which was committed in good faith in 1923 (when Ethiopia was admitted to the league with Italian support)."

More than 96 per cent. of the population of the Netherlands uses electricity for light and power. There are 50 power plants in operation in that country.

These pictures were taken in Calgary after the recent Provincial election when Mr. Aberhart's Social Credit Party swept the polls to capture an overwhelming majority in the Legislature. Left to right are Mr. William Aberhart and Mrs. Aberhart, while at the top centre is a picture of the Aberhart home, bottom, centre, is a view of the Prophetic Bible Institute at Calgary, of which Mr. Aberhart is the leader. It was in this institute that the Social Credit system was born.

A daughter has arrived to Mr. and Mrs. James Smith, of Cowley.

Huey Long's assassin was rewarded with about forty bullets that practically severed his body in half.

An excellent writeup of Blairmore appeared in last Saturday's issue of the Calgary Daily Herald.

A dance in aid of St. Chad's church will be held in the Lundbreck hall on Friday, September 20th.

Ken Ringland, of J. K. Ringland & Co., Lethbridge, was a business visitor in Blairmore during the week.

The Edison schools have an enrollment of 433 pupils in 12 rooms, an average of 36 per room.

A fly-sheet editor met instant death in a small town in Massachusetts. He tripped and fell, his lead pencil piercing the brain tank.

Word comes from Cape Cod of a kind-hearted female reviving a dog with gin. The same treatment helps a convention Elk.

The only guy we are sure of that didn't kick about the rotten condition of Blairmore's main street during the past week passed over the town by airplane on Saturday morning.

Eli Farmer, president of the Drumheller branch of the Canadian Legion, sustained a fractured rib while at work in the Western Gem mine recently, following a fall of rock.

Local and General Items

The Editor will be pleased to receive items for this section, requests visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Wataskiwin ratepayers voted \$10,000 to erect a covered skating rink.

PIANO TUNING—J. P. Avery, Calgary. Leave orders with Miss Charlton or Mr. Moser.

Miss Winnifred Wolstenholme, of Vancouver, is here visiting with her father, Mr. Wilfred Wolstenholme.

Peter Farmer, of Blairmore, is doing some laboratory testing work at Chapman Camp.

Young Ethiopian women wear veils so their young men can't see their faces until after marriage. Women in other nations use cosmetics.

An amendment to the criminal code of Canada lists the Blairmore boulevard as the latest concocted crime.

We are asked to announce that the ladies of St. Anne's church will hold their annual bazaar in the Columbus Hall on the afternoon and evening of Wednesday, November 16th.

There will be a meeting of the 1st company, Blairmore Girl Guides, tomorrow (Friday, September 18th) evening at 7 o'clock, to be held in the Anglican hall.

Fumagali was asked if he was going on a motor vacation this fall. He replied: "No, I'm going to take a Scotchman's vacation—stay at home and let my mind wander."

John Heron, Conservative candidate for Macleod, is the only Conservative candidate in Canada who has cast aside allegiance to stand by reciprocity.—High River Times, Sept. 7, 1911.

Quite a number of members of the Knights of Pythias from this district attended the big rally at Michel on Saturday night last, the occasion being the visit of Supreme Vice-Chancellor F. Jones, of California.

The editor of the Bassano Mail had for weeks been searching for a suitable name for his newly-adopted pup, till a very much displeased lady, in no uncertain terms, suggested: "You naughty thing!"

With the introduction of a new train service on the main line of the C.P.R. between Bassano and Calgary, No. 4 regular will make no stops between these points, thus making a gain in time over the old schedule on the trip.

A British Columbia paper states that when Harvey Murphy decided to campaign in Fernie he was taking in far too much territory, and suggested that if wise he would stick with his own unfortunate element in Blairmore.

The remains of Paul Kovatch, who died from injuries sustained at the mine at Bellevue, were laid to rest in the Bellevue Catholic cemetery on Sunday. Kovatch is survived by his wife and two children, residing in Czechoslovakia.

The happiest man in the world is said to reside in one of the Ozark counties in south Missouri. He has six fiddles, ten children, thirteen hounds, a deaf and dumb wife and a moonshine still that has never been spotted by the government.

Fernie lost one of its old and respected families last week when Guy Johnston, sales agent for the Scott Fruit Co., moved to Blairmore, where he will be more convenient to his work. The Johnston family will be missed here.—Fernie Free Press.

The English teacher had been telling his class about different coins of the realm, and after the lesson he pulled from his pocket a two-shilling piece, and, slapping it on the desk said: "What's that?" and an immediate answer followed from a boy in the front row: "Heads, sir."

Aberhart's idea is somewhat new. He starts housecleaning in the fall.

Miss Polly Began is down from Calgary on a visit to her parents.

J. S. Woodsworth, C.C.F. leader, will speak at Lethbridge tonight at 8 o'clock.

Aberhart has asked for the resignation of Hon. Alex. Ross, chairman of the Workmen's Compensation Board.

Fernie and Blairmore footballers will engage in a game for the Cran Cup on Sunday here.

Bert Clarke, of Corbin, has taken over the management of the Royal hotel at Fernie.

The only objection we have heard to Mr. Hugill being chosen attorney-general for Alberta is that he's a Nova Scotian.

Lieutenant Fitch, of the Salvation Army corps, Coleman, returned last week end from his furious, spent with relatives in Vancouver.

An employer can judge an applicant for a job by noting where the shoe is—on the heel or the seat of the pants.

An article in a daily paper referring to a Communist address at Calgary by error (of course) carried the heading: "Barnyard Manure Decreases Weeds." Next?

"Feed the Brute"

THE wise housewife soon learns the lesson. It is her duty to give him not only food that tastes good, but food that supplies him with health and energy.

MOTHER'S BREAD

does both. Its rich Bread flavor is a never failing appetite-delight. Its perfectly balanced ingredients make it the ideal health-food. Every morsel is easily assimilated—not a crumb goes to waste.
